22<sup>nd</sup> October 2004

## Ripper Reunion 2004 - Bulletin No 4

**Just a week to go and over 130 Rippers have replied and will be attending. If you are yet to reply it's not too late, but please ring or email as soon as possible for catering and other logistics.**

**A little accommodation is still available in Stratford and with family members if desired.**

**David Phillipson has offered sight seeing flights around the district weather permitting as an additional activity option for Sunday.**

**Some have already advised that they will be bringing photos and other family memorabilia, artifacts and family history details. These will all add to the enjoyment of the weekend so think about it and also any family stories you can share.**

**Please continue try to think of any Ripper descendents who still may have been missed in previous mail/email outs or who may not have received a personal verbal invitation from another family member and have them contact us ASAP – it's not too late and it would be a pity to miss someone just because we had an old address.**

**While the time is now getting short any family trees already done which you would like to share (whether in paper or computer form) can be forwarded to the reunion address as soon as possible we still have a little time for copying, printing and mounting or putting into power-point form presentation over the weekend.**

**It's still not too late so if you are able please register now and continue to spread the word and the invitation which can be downloaded from the website at <http://ripper.customer.netspace.net.au/>.**

**We hope to see as many as possible on the weekend.**

**Don Ripper  
For the Organizing Committee**
